

RISK Assessment Tool (V5 06/08/2020) Allens Croft /Jakeman/Shenley Fields Nursery Schools Full Opening RA 24th August 2020

Introduction

The government plan is for the ~~phased return of some children to school from the week commencing 1 June~~ full return of all pupils from September 2020: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

School employers and leaders are required by law to think about the risks the staff and pupils face and do everything reasonably practicable to minimise them, recognising they cannot completely eliminate the risk of coronavirus (COVID-19). School employers must therefore make sure that a risk assessment has been undertaken to identify the measures needed to reduce the risks from coronavirus (COVID-19) so far as is reasonably practicable and make the school COVID-secure. General information on how to make a workplace COVID-secure, including how to approach a coronavirus (COVID-19) risk assessment, is provided by the [HSE guidance on working safely](#).

This risk assessment checklist/tool is based on Government guidelines on COVID-19 as at 2nd July 2020 **and has been updated on later guidance from 27th July 2020**. It is provided to help schools to prepare and decide arrangements for an increased number of children attending/returning to school. It remains subject to change at a short notice as updates are received from the Department for Education (DfE) or Birmingham City Council (BCC). [EYFS guidance](#) should be considered for Nursery Schools and Nursery Classes. Separate guidance is available for Special Schools and is not considered in this tool.

Any updates to the Risk Assessment will be identified in the version control table from p6 onwards.

The completion of this tool/checklist should not be undertaken in isolation by one individual and should involve staff who understand the risk assessment process. Once completed, the risk assessment should be shared with the school's workforce. If possible, schools should consider publishing it on their website to provide transparency of approach to parents, carers and pupils (HSE would expect all employers with over 50 staff to do so). **A risk assessment should be updated and revisited regularly.**

Risk assessment is about identifying reasonably practicable measures to control the risks in a workplace or when undertaking an activity. The process evaluates the threats and risks of a specified issue/situation and enables the likelihood that somebody could be harmed, together with an indication of how serious the harm could be, to be considered.

Likelihood - For each issue/situation, determine the likelihood it will occur.

Severity (outcome) - **determine** the potential injury/health.

Likelihood	Severity
------------	----------

This is a model risk assessment based on Government guidelines on COVID-19 as at 02/07/2020 and remains subject to change at short notice as updates are received from the Department for Education (DfE) or Birmingham City Council (BCC). **Schools should amend according to individual context.**

RISK Assessment Tool (V5 06/08/2020) Allens Croft /Jakeman/Shenley Fields Nursery Schools Full Opening RA 24th August 2020

4 = Certain = common or frequent occurrence	4 = Major risk - death, loss of limbs, etc
3 = Probable = likely to occur sometime	3 = High risk - broken bones, burns, etc
2 = Possible = may occur sometime	2 = Moderate risk - cuts, bruises, sickness, etc.
1 = Improbable = unlikely to occur	1 = Minimal risk - strain, shaken, no injury, etc

The matrix (below) provides a method to determine the level of risk, with the Likelihood and Severity being independently scored and plotted.

RISK LEVEL MATRIX					
PROBABILITY (LIKELIHOOD)	4	Low	High	Very High	Very High
	3	Low	Med	High	Very High
	2	Low	Low	Med	High
	1	Low	Low	Low	Low
		1	2	3	4
		SEVERITY (OUTCOME)			

Once the likelihood and severity of the risk have been assessed they are plotted on the risk profiling grid above and the risk rating defined e.g. If a risk has a likelihood of 3 – Likely and a severity of 1 – Minimal, the risk rating will be 3 x 1 = 3. This would mean the risk is low and arrangement would be adequate. Example as follows:

Issue/Area to be addressed (Potential Hazard)	Current Control Measures Good Practice Control Measures Adopted	In place (Yes/No)	Further action/ Comments	Final Risk Rating
--	--	----------------------	-----------------------------	----------------------

This is a model risk assessment based on Government guidelines on COVID-19 as at 02/07/2020 and remains subject to change at short notice as updates are received from the Department for Education (DfE) or Birmingham City Council (BCC). **Schools should amend according to individual context.**

RISK Assessment Tool (V5 06/08/2020) Allens Croft /Jakeman/Shenley Fields Nursery Schools Full Opening RA 24th August 2020

Issue/Area to be addressed (Potential Hazard)	Current Control Measures Good Practice Control Measures Adopted	In place (Yes/No)	Further action/ Comments	Final Risk Rating
Example: Slips, trips and falls <i>There are smooth surfaces and tripping hazards around the school site with the potential to cause persons to fall over injuring themselves with multiple injuries.</i>	<ul style="list-style-type: none"> • <i>Cleaning regime in place.</i> • <i>Correct safe substance used for surfaces.</i> • <i>Signage available.</i> • <i>Cleaners have received training.</i> • <i>Introduce hazard reporting system and ensure that staff are aware of school H&S Policy.</i> • <i>Undertake specific risk assessment on snow and ice.</i> • <i>Remove all trailing cables in admin office.</i> 	Y	Review arrangements for new staff i.e. ensure the H&S policy to shared /communicated	3x1=3 Low

DRAFT

This is a model risk assessment based on Government guidelines on COVID-19 as at 02/07/2020 and remains subject to change at short notice as updates are received from the Department for Education (DfE) or Birmingham City Council (BCC). **Schools should amend according to individual context.**

RISK Assessment Tool (V5 06/08/2020) Allens Croft /Jakeman/Shenley Fields Nursery Schools Full Opening RA 24th August 2020

<p>Considerations</p> <ul style="list-style-type: none"> Nationally the ONS analysis has identified an increased risk of death among some ethnic groups, although this increased risk reduces when age, gender and long term conditions like type 2 diabetes, high blood pressure and kidney disease, but doesn't disappear completely and further research is needed to explore this. There doesn't appear to be any different between in ethnic groups in terms of infection rates, i.e. who catches it, the difference is in the proportion who die. In light of this it is important for risk assessments of individuals, staff and pupils, take this into account, the main risks are around health conditions such as diabetes, kidney disease and high blood pressure, especially if poorly controlled and also obesity has been identified as a significant risk factor. The risk of death is also higher in older people over 65yrs and men have a slightly higher rate than women. Those with respiratory conditions like asthma and chronic obstructive pulmonary disease also pose higher risks, along with auto-immune conditions. Smoking can also exacerbate the disease and lead to poorer outcomes The NHS risk assessment suggests BAME individuals have a higher risk at a younger age, so as a rough guide consider a BAME 55yr old's risk in the same way you would consider White 65yrs old, but the biggest risk factor is existing health conditions. Once risks are identified then it would be sensible to work with your occupational health provider on how then to look at adjustments and whether staff can, for the remainder of term, support remote teaching or telephone support roles. This assessment will need to be on a case by case basis. If someone in the household is shielding (part of the 1.5million), the children in that household should not be included in the first wave of students going back to school. Staff may however consider returning if they are able to practice good hand hygiene and follow the national guidelines on living with someone who is shielded. It is less clear cut for children who are living in households with other vulnerable adults or siblings who are not shielded, however it is worth noting that the risk is less from younger children than older children and can be reduced through good hand hygiene. This however will be a decision that parents will need to make individually based on their personal circumstances. 					
<p>Measures have not been put in place to protect staff and pupils with underlying health issues, BAME staff, and those who are shielding</p>	<p>1x4=4 Low</p>	<ul style="list-style-type: none"> An equality impact assessment is undertaken for staff and pupils All members of staff and parents of pupils with underlying health issues, those within vulnerable groups or who are shielding have been instructed to make their condition or circumstances known to the school, and members of staff with children who cannot attend school/nursery/childminder etc are supported (added in v3). Records are kept and regularly updated e.g. check children and staff who have identified as having asthma have up to date care plans. Members of staff and parents of pupils with underlying health conditions have been asked to seek and act on the advice of their GP/consultant/midwife or current government advice. 	<p>Yes</p>	<ul style="list-style-type: none"> Cluster EIA completed June 2020. High proportion of BAME staff across 1 cluster. Individual risk assessments in place for vulnerable staff. EHT use of HR 	<p>1x3=3 Low</p>

<p>18. Home to School Transport</p>					
<p>Urban Transport Group released a briefing (27 May) urgently requesting the Government to lead joined-up dialogue between the education and transport sectors on how best to resolve the operational challenges and to meet the full additional transport costs of the return to schools and colleges.</p> <p>Keys points include:</p> <ul style="list-style-type: none"> • Promote the use of sustainable travel and transport (i.e. modes that improve physical wellbeing for users and/or environmental quality) for journeys to and from education and training establishments for children and young people or compulsory school age in the local authority area. • As part of their overarching role to keep cities regions moving in a manner that protects health, the environment and quality of life, transport authorities also have an interest in ensuring that the return to school and college does not create congestion, contribute to air pollution or pose a risk in terms of the health and safety of children and their parents or of transport staff and the wider public, including passengers travelling on mainstream routes that serve schools. • In line with this, transport authorities will be looking to ensure that children are able to safely walk, cycle or scoot to school where possible. Indeed, in normal times, transport authorities invest considerable resources in promoting mode shift for school transport and in supporting and training children to travel safely and sustainably. <p>The need to encourage children to walk, cycle or scoot to school sitting alongside the risks posed by a rise in speeding and other dangerous driving on empty roads. http://www.urbantransportgroup.org/resources/types/briefings/transport-challenges-return-schools-and-colleges-following-easing-covid-19</p>					
<p>Pick up and drop off times</p>	<p>3x3=9 High</p>	<ul style="list-style-type: none"> • As per <u>Government guidance</u>: • <i>tell parents that if their child needs to be accompanied to the education or childcare setting, only one parent should attend</i> • <i>tell parents and young people their allocated drop off and collection times and the process for doing so, including protocols for minimising adult to adult contact (for example, which entrance to use)</i> • <i>make clear to parents that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-</i> 	<p>Yes</p>	<ul style="list-style-type: none"> ○ Only one parent to attend site. RISK Assessment Tool (V5 06/08/2020) Allens Croft /Jakeman/Shenley Fields Nursery Schools Full Opening RA 24th August 2020

		<p><u>passengers</u></p> <ul style="list-style-type: none"> ➤ ensure that transport arrangements cater for any changes to start and finish times <p>In addition:</p> <ul style="list-style-type: none"> • Advise parents/carers to use various modes of transport including driving to school being mindful of the need to socially distance around the school safely. Encourage walking, cycling or scooting to their education setting where possible. • Identify possible park and stride sites - parents and others who do have to drive can then park (legally) nearby and walk the last part of their journey. • Drivers should be advised to anticipate more pedestrians and cyclists than usual, restrict speeds and avoid parking on (or partially on) pavements. • If travelling by public transport: check website or live bus app for revised timetables before travel; try to keep 2 metres away from people not in their household while waiting in the queue; carry and use hand sanitiser; wear a face covering if they can; sit in the window seat, leaving the seats in front and behind empty. For further information and guidance visit: https://nxbus.co.uk/west-midlands/news/stay-safe-when-travelling-with-us • Use <u>Modeshift STARS</u> to review and update school travel plan considering both staff and pupil travel. Communicate revised travel plans clearly to contractors, BCC and parents. • Consider using social media messaging to inform the local community that parents/pupils may be travelling at specific times in order to avoid pavement congestion. • For further information and guidance regarding any of the above points see: • www.birmingham.gov.uk/modeshiftstars or contact: connected@birmingham.gov.uk. For information regarding home to school travel contact: Mark.Hudson@birmingham.gov.uk 		<p>parents on safe travel. Upload the government/ NHS poster on passenger safety to websites. 'Plan your journey, on your journey and after your journey'</p> <ul style="list-style-type: none"> ○ Promote use of waking/ cycling or scooting to school as healthy mode of travel in pre-entry early help assessment meeting with parents ○ Promote use of masks and social distancing when travelling to school. ○ Staggered arrival times for different units to avoid congestion at school site.
