

# Department for Education (DfE) Update: Important FSA Infant Formula Recall Information - 11 February 2026

## DfE update:

### Details of the recall

The Food Standards Agency (FSA) is asking parents, early years settings and other caregivers to check their infant formula against specific batches of Aptamil and Cow & Gate products listed in the Product Recall Information Notice published on Friday 6 February 2026.

As you might have seen in media coverage and on social media, Danone's recall has been issued due to potential cereulide contamination, which can cause illness including vomiting and stomach cramps. The issue only affects the batches listed in the [recall notice](#), in addition to the product included in Danone's [earlier recall on 23 January 2026](#).

The FSA's advice to parents and carers is that if they have any of the affected products, stop using them and switch to an alternative formula. If formula was prescribed, they should speak to a pharmacist or doctor before changing. If they

have recently fed the formula to their baby and are concerned about symptoms, they should contact their GP or call NHS 111.

### **Additional recalls**

This follows recent [recalls from Nestl? of SMA infant formula](#) products due to the same contamination issue.

The FSA have published the following:

- [Product Recall Information Notice](#) detailing the further recalled batches of Danone infant formula product
- our [infant formula recalls page](#) providing a full list of recalled products and the latest advice
- [news story asking parents and caregivers to check their infant formula products](#)

Kind Regards,
