Dear Parent/ Carer

Here at Shenley Fields, we're implementing a supervised toothbrushing programme. The purpose of this programme is to improve the oral health of children by increasing their exposure to fluoride through daily toothbrushing in the school/nursery setting and promoting self-care skills at home.

Every child participating will be provided with a toothbrush and toothpaste throughout the programme and also a oral health kit to take home. All staff involved will be trained to deliver the programme safely and effectively at nursery, on commencement of the programme.

For your child to take part in the supervised daily toothbrushing please fill in the form below and return to nursery.

We must emphasise that this is in addition to brushing every morning and night at home.

Thank you

Child's name Class

Please circle **ONE** option below:

Yes, I give permission for my child to be part of the daily tooth brushing programme

No, I do not want my child to be included in the daily toothbrushing programme
